October 2010

It's hard to believe its October already and eight weeks of dance classes have seemed to fly by. We have an outstanding group of dancers and teachers this year and are looking forward to a great year of dance.

New Website: Visit www.tcdance.net or www.tricountydance.com for all the latest information and updates.

Fall Break: We will be having classes during East Noble Fall Break.

Festival of the Trees: Start your holiday season by attending a condensed original TC Dance adaptation of the "Nutcracker" on Saturday November 20th at 10:15am at the Kendallville Event Center. There is a \$3 admission fee and all proceeds go to Parkview Hospice.

Thanksgiving Break: No classes on Wednesday November 24th, Thursday November 25th and Saturday November 27th.

Christmas Break: No classes December 22nd to January 2nd.

Parent Observation: Is your dancer taking a class in a room without viewing windows? Parents are welcome to come into the classroom the following weeks: October 25-28, January 24-27 and May 2-5. This will be the only time parents may visit due to the continuity of the class being broken by the distracting visitors. No personal re-scheduling will be permitted.

While observing your dancer please follow these rules:

No cell phones

No younger siblings

No talking to your dancer and limit your conversation with other parents

Please stay in the classroom through the entire class – no leaving and re-entering

Picture Week: May 9-12

Recital Dates: We have a tentative date of June 17-18.

Designated snack area: Food and drink are allowed only in the snack area of the building. Please help us maintain our facility by sitting in the designated area.

Weather Closings or cancellations: A recorded message will be available after 3pm concerning classes. Please call the studio and check before leaving home. We do not automatically cancel classes when schools are closed. There is no credit for classes cancelled due to the weather.

We hope everyone has a great year dancing here at TC Dance!
